Welcome to the Cyber Center of Excellence Noncommissioned Officer Academy (CNCOA)! Our goal is to train, lead, motivate and mentor every student who attends our Academy.

The Senior Leader Course (SLC) and Advanced Leader Course (ALC) are the legacy courses that have been taught at the Academy. However, we have made great strides to propel our pedagogical efforts into the 21st century.

Our mission is to develop Cyber Leaders who possess the attributes and leadership skills required of professional Noncommissioned Officers. Our goal is to enhance the confidence of Cyber Noncommissioned Officers while inspiring them to willingly assume and fulfill their responsibilities as leaders; both during peacetime and times of war.

The keys to success at the CNCOA are: a positive attitude, dedication to excellence and living the Army values. Embracing these tools will result in successful completion of your academic program and will lead to graduation. I am confident that you will find your experience both physically and mentally challenging. However, when you leave these Academy doors, I know that you will be an asset to the Army's Cyber community.

I encourage you to provide your feedback, comments and suggestions to assist us with continuing to make your academy a much better place to learn.

Again, welcome to the CNCOA and congratulations on being selected to attend the Cyber Center of Excellence Noncommissioned Officer Academy. I look forward to meeting and getting to know each and every one of you.

TRAIN TO LEAD...LEAD TO TRAIN!
