Last Updated: 30 March 2016

PURPOSE:

To provide leader and specialty training for Noncommissioned Officers (NCOs) in Military Occupational Specialty (MOS) 25B at Skill Level Three (SL3). Training will provide the student with the skills, knowledge and technical expertise to provide leadership in coordinating and supervising the employment, operation, management and maintenance of information technology systems in mobile and fixed facilities at all echelons.

COURSE SCOPE:

This course provides MOS 25B Skill Level 3 Soldiers resident technical training consisting of tasks related to Network Management from Cisco Exploration 3; Information Dissemination Management; Information Security; and Tactical Network Management. This course also provides the Army's Junior Noncommissioned Officers the skills they need to conduct military operations across the full spectrum of conflict including logistics operations at the squad and platoon levels. The student will be challenged to apply skills and knowledge obtained in this course in a tactical capstone Field Training Exercise (FTX).
