442nd Signal Battalion - BRIGADE S6 COURSE

Last Updated: 30 March 2016

This course management plan provides course managers and instructors with the information, required to conduct the training prescribed by the enclosed training materials.

COURSE STRUCTURE:

a. The Brigade S6 Staff Course is 2 weeks in duration and is programmed to train 108 students annually (six (6) iterations with a maximum class size of 18 students). The Brigade S6 Staff Course is designed to provide Signal leaders with the skills and knowledge needed to be the network services, information assurance, and communications systems for Brigade organizations. Instruction includes the capabilities, limitations, and employment of Signal assets and user owned equipment as it supports the Warfighter.

b. The training includes overviews of C4 systems, services, connectivity, and relationships. Provide systems familiarization of Joint Network Node (JNN)/ Warfighter Information Network-Tactical (WIN-T), Army Battle Command Systems (ABCS), and component equipment. Provides comprehensive practice in effectively planning and integrating Mission Command (MC) information and communications systems. Systems include ABCS, Command Post of the Future - (CPOF), Force XX! Battle Command, Brigade-and-Below (FBCB2), Blue Force Tracking (BFT), and satellite technologies. The students study basic Army/DoD communications networks and apply instruction to scenario based practical exercises.
